“Life In The Assembly”

Knowledge: A person does not understand why something is happening or being done, and they need more information (Phil. 1:9-10).

Practice: A person is not familiar with a certain procedure or policy, that is biblically allowed, and it makes them uncomfortable (2Tim. 3:17).

Preference: A person has knowledge, and understands various practices, yet they simply disapprove of whatever is being done or considered (Rom. 14:1-4).

“Tact is the knack for making a point,
without making an enemy.”
